**Re: Qwest Communications International Inc. Application
for Authority to Provide In-Region, InterLATA Services
in Colorado, Idaho, Iowa, Montana, Nebraska, North
Dakota, Utah, Washington, and Wyoming;
WC Docket No. 02-314**

Dear Ms. Dortch:

On behalf of Qwest Communications International Inc. ("Qwest"), I am writing to provide information in response to inquiries from the Wireline Competition Bureau ("WCB") staff, and to correct erroneous information included in my *ex parte* letter of October 7, 2002 ("Oct. 7 *Ex Parte*").

First, in the Addendum to the Brief included in the application initiating this proceeding ("Addendum"), Tab 10, page 4, we mentioned that, to implement earlier benchmark-related rate reductions, "[r]evised tariff sheets were filed on September 25, 2002" with the Washington Utilities and Transportation Commission ("WUTC"). In response to a request from WCB staff, I am enclosing a copy of that tariff filing as Attachment 1 to this letter. I am also enclosing, as Attachment 2, a copy of the revised Exhibit A to the Statement of Generally Available Terms, which Qwest filed with the WUTC on September 26, 2002. (It should be noted that further revisions to the tariff and the SGAT will need to be filed to implement the rate changes discussed in the Oct. 7 *Ex Parte*. Copies of those filings will be submitted in the record of this proceeding as soon as possible.)

Second, in the Addendum, Tab 10, page 4, we mentioned that, "in order to address WUTC and Staff concerns that a deaveraged HUNE [high-frequency

Marlene H. Dortch
October 11, 2002
Page 2

portion of the loop unbundled network element] rate would be inconsistent with a prior WUTC order, on Sept. 25, 2002, Qwest offered to withdraw the deaveraged rates and refile a flat rate of \$2.00 (reduced from \$4.00), to be effective September 29, 2002.” The WCB staff asked whether the WUTC issued a written order requiring this change. The answer is that there was no such order, but that during the Sept. 25 open meeting, WUTC Staff and Commissioners stated that Qwest’s proposal to deaverage the HUNE would be contrary to and in violation of the WUTC’s pricing order. Staff also argued that reducing the rate in urban but not rural zones would be discriminatory. Importantly, the FCC has provided no definitive guidance on the appropriate methodology for pricing the high-frequency portion of the loop, *see* Qwest Reply Brief, WC Docket No. 02-148, at 99-101 (July 29, 2002); Qwest Initial Brief, WC Docket No. 02-189, at 166-68 (July 12, 2002); and it is abundantly clear that a section 271 proceeding is an “inappropriate forum[] for the considered resolution of industry-wide local competition questions of general applicability” like this one. *See, e.g., Texas 271 Order*, ¶¶ 23, 25; *accord AT&T Corp. v. FCC*, 220 F.3d 607, 630-31 (D.C. Cir. 2000); *Missouri/Arkansas 271 Order*, ¶ 82 & n.257.

Third, the WCB staff asked whether Qwest initiated a proceeding in response to the Montana Public Service Commission (“PSC”) Evaluation filed in WC Docket No. 02-189 on August 1, 2002. That Evaluation expressed concern over an alleged “price squeeze” between Qwest’s intrastate access charges and prevailing intrastate long-distance rates in Montana, and stated that, to mitigate this concern, the Montana PSC expected Qwest to initiate a “full revenue requirements and rate design case” on or before October 1, 2002. Notably, Montana PSC Commissioner Bob Rowe dissented from this portion of the Evaluation, calling it a “*well-intentioned bad idea*.” Montana PSC Evaluation, Separate Statement of Commissioner Rowe, at 62 (emphasis in original), WC Docket No. 02-189 (filed Aug. 1, 2002). ^{1/} Commissioner Rowe’s position is consistent with FCC precedent, which

^{1/} Commissioner Rowe observed that the requested “complete revenue requirements and retail rate design case concerning regulated intrastate services [is a] . . . full leap away from Section 271 [and] does not . . . directly relate to the alleged access/long distance price squeeze.” *Id.* at 61. Commissioner Rowe further noted that there is no precedent for intrastate access charges to be addressed in the context of a federal Section 271 application, and that novel interpretive disputes such as this cannot be addressed in the Section 271 context. *Id.* at 60-61 & n.104. He characterized the alleged problem as “a knot that the Montana Commission should

Marlene H. Dortch
October 11, 2002
Page 3

makes it clear that access charge reform and alleged “price squeezes” caused by access rates are not relevant to Section 271 applications. *See, e.g., Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, Supplemental Order Clarification*, 15 FCC Rcd 9587, 9598 ¶ 19 (2000); Qwest Initial Brief, WC Docket No. 02-189, at 191-92 (July 12, 2002).

Consistent with its prior undertakings to the Montana PSC, Qwest filed a letter with the PSC on October 1, 2002, proposing the initiation of an industry-wide, collaborative review of access charges (including those charged by independent ILECs and CLECs as well as by Qwest), intercarrier compensation, revenue-neutral rate rebalancing, and related competition issues. A copy of Qwest’s letter is included as Attachment 3 to this letter. Qwest did not initiate a “full revenue requirements and rate design case” and does not intend to do so.

Finally, in Attachment 1 to the Oct. 7 *Ex Parte*, an erroneous rate of \$0.000780 inadvertently was listed for shared transport in Washington. The correct rate is \$0.000760. A corrected version of the matrix is enclosed as Attachment 4 to this letter.

Pursuant to the Public Notice initiating this proceeding, DA 02-2438 (rel. Sept. 30, 2002), the twenty-page limit does not apply. If you have any questions, please contact me.

Respectfully submitted,

David L. Sieradzki
Counsel for Qwest Communications
International Inc.

cut through itself, using the statutory tools it already possesses, rather than borrowing the federal hedge clippers.” *Id.* at 60.

RE: Advice No. 3343T - Replacement No. 2 - Docket UT-021121 - Do Not Redocket

ATTENTION: Glenn Blackmon

Dear Ms. Washburn:

Qwest Corporation (Qwest) is forwarding for filing Advice No. 3343T Replacement No. 2 as listed on Attachment A. This replacement removes the footnotes that reflected the previously requested rate effective date of July 10, 2002 and reduces the current rate for the Shared Loop from \$4.00 to \$2.00 per loop.

If you have questions concerning this filing, please contact Sue Henson on (206) 345-4341.

Yours very truly,

Re: Docket Nos. UT-003022 and UT-003040 – SGAT Exhibit A

Dear Ms. Washburn:

Enclosed for filing is the original and 14 copies of Qwest Corporation's Notice of Updated Exhibit A to its Statement of Generally Available Terms and Conditions (9/26/02). Also enclosed is a diskette with the Notice (in Word format) and Exhibit A (in Excel format). The revisions bring the rates in Exhibit A into conformance with the tariffs filed on September 25, 2002, in Docket No. UT-021121. Qwest requests that this Third Amended Exhibit A be substituted for the currently effective Exhibit A, and that it be permitted to become effective September 29, 2002.

Sincerely,

Lisa A. Anderl

11 U S WEST Communications, Inc.'s
12 Compliance with § 271 of the
Telecommunications Act of 1996

Docket No. UT-003022

13 In the Matter of U S WEST
14 Communications, Inc.'s Statement of
15 Generally Available Terms Pursuant to
16 Section 252(f) of the Telecommunications
Act of 1996

Docket No. UT-003040

**QWEST CORPORATION'S NOTICE OF
UPDATED EXHIBIT A TO ITS STATEMENT
OF GENERALLY AVAILABLE TERMS AND
CONDITIONS (9/26/02)**

17
18 Qwest Corporation, formerly known as U S WEST Communications, Inc. ("Qwest"),
19 submits this notice of its updated Exhibit A to its Statement of Generally Available Terms and
20 Conditions ("SGAT") in the State of Washington. This Third Amended Exhibit A is attached.
21 Qwest respectfully requests that the Commission allow this version of Exhibit A, and specifically
22 those revised rates reflected in Exhibit A, to go into effect pursuant to 47 U.S.C. § 252(f)(3)(B), on
23 September 29, 2002.

24 **DISCUSSION**

25 On August 30, 2002, Qwest filed a Second Amended Exhibit A, which reflected rate
26 changes as detailed in the pleading accompanying that filing. Qwest asked the Commission to

QWEST CORPORATION'S NOTICE OF UPDATED
EXHIBIT A TO ITS STATEMENT OF GENERALLY
AVAILABLE TERMS AND CONDITIONS (9/26/02)

Qwest
1600 7th Ave., Suite 3206
Seattle, WA 98191
Telephone: (206) 398-2500
Facsimile: (206) 343-4040

1 allow that Second Amended Exhibit A to become effective retroactively to July 10, 2002. The
2 Commission has not yet entered an order on that filing.

3 Also on August 30, 2002, Qwest filed tariff revisions to its wholesale tariff that were
4 consistent with the rate changes proposed in the Second Amended Exhibit A. The tariff revisions
5 (Docket No. UT-021121) were addressed at the Commission's open meeting on September 25,
6 2002. In that meeting, Qwest agreed to modify and refile the tariff sheets to make two changes:
7 Qwest withdrew the request for a retroactive effective date, and Qwest modified its rate proposal
8 for the high frequency portion of the loop to eliminate the deaveraging proposal and to simply
9 reduce the current flat-rated charge from \$4.00 per month to \$2.00 per month. Those revised tariff
10 sheets were filed with the Commission immediately after the open meeting on September 25, 2002.
11 The Commission has determined to take no action on those revisions and they will thus become
12 effective on September 29, 2002.

13 This Third Amended Exhibit A is consistent with the revised sheets filed in Docket No. UT-
14 021121. Qwest requests that the submitted rates become effective on the same date as the tariff
15 sheets, September 29, 2002. Qwest will incorporate these new rates into its interconnection
16 agreements. Where a rate in Exhibit A is lower than the rate currently in a CLEC's interconnection
17 agreement, the lower rate will apply commencing on the effective date of Exhibit A. The net effect
18 of this action will be to maintain or reduce wholesale rates in Washington. In no case will Qwest
19 increase rates to our CLEC customers. Qwest intends that these new, lower rates remain in effect
20 for its CLEC customers until one of the following occurs: the Commission establishes a different
21 rate in a cost docket; Qwest files with and receives approval from the Commission for a different
22 rate; or a change in applicable law takes place triggering a rate change pursuant to any "change in
23 law" provision of an applicable interconnection agreement.

24 CONCLUSION

25 For the foregoing reasons, Qwest respectfully requests that the Commission allow this
26 version of Exhibit A to the SGAT to go into effect on September 29, 2002 pursuant to 47 U.S.C.

1 § 252(f)(3).

2 DATED this 26th day of September, 2002.

NOTES:

- * Unless otherwise indicated, all rates are pursuant to rates approved Cost Dockets UT-960369 and UT-003013.
- # Denotes voluntary rate reduction. These rates are not subject to true up and will be applied on a going forward basis. Deaveraged loop and subloop (distribution and feeder) rates are pursuant 37th supplemental order in docket UT-003013.
- ## Additional reduction required to voluntarily reduced rates to reflect the fact that certain sold exchanges had not been removed from the FCC Synthesis Model results.
- ### Rate voluntarily deaveraged to be consistent with the deaveraged loop rate. Deaveraging approach subject to review in the next phase of the cost docket.

- [1] Rates proposed in Cost Docket UT-003013 on 11/7/01 and/or 3/7/02. TELRIC based where required.
- [2] Market based rates not addressed in the Cost Docket.
- [3] Individual Case Basis
- [4] Rate per FCC guidelines.
- [5] Regional TELRIC based where required
- [6] Qwest has agreed to a bill and keep arrangement for EICT, pursuant to 271 workshops.
- [7] Qwest will utilize the Commission TELRIC ordered rates for this element. However, Qwest reserves its right to implement market based prices sometime in the future pursuant to CC Docket No. 96-98, paragraphs 278-287.
- [8] Caged Collocation Space Construction includes one 60 Amp Feed. Credit applied in appropriate amount (20, 30 or 40 Amp Feed) when 20 Amp Feed, 30 Amp Feed or 40 Amp Feed -45 Volt DC Power Cable is ordered with Space Construction.
- [9] This is a blended rate of the End Office to End Office and the End Office to Tandem rates Ordered by the Commission.
- [10] SRP- Special Request Process is a request by the customer to perform something that is technically feasible but the process and pricing are not yet in place.
- [11] Rate has been ordered in a different section and is being used due to the similar characteristics of the element. This rate will be replaced when a rate is developed or ordered for this product.
- [12] Rate not addressed in Cost Docket proceeding
- [13] The preliminary engineering and planning costs are included in the caged and cageless space construction charges. These engineering and planning charges are also included in the caged and cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for the collocation job. The credit will apply to whichever QPF is applied. This exhibit currently lists multiple QPFs based on what has been proposed on the cost docket and what was approved in the AT&T interconnection agreement. CLEC may choose either QPF at this time.

Rick Hays
Vice President - Montana
State Office

October 1, 2002

Gary Feland, Chairman
Montana Public Service Commission
1701 Prospect Avenue
Helena, Montana 59620

Dear Gary:

In Qwest's letter to you of June 12, 2002, Qwest indicated its intention to initiate, by October 1, 2002, a proceeding in which Qwest would present options to rebalance access charge rates. Qwest is cognizant that in its 271 deliberations, the Commission expressed a desire for Qwest to initiate a broader proceeding. However, Qwest continues to believe that it would be in the public interest for the Commission to conduct an industry-wide analysis of access charges, including a review of current rates, the manner in which they are collected and their effect on competition.

There is no dispute that switched access charges have a significant industry-wide impact. Access charges are a material revenue component for all local telephone companies, incumbents and new entrants alike. In fact, new entrants often charge significantly higher rates for switched access services than are charged by Qwest and the independent telephone companies. New entrants may collect these charges for all facility-based local services, including UNE-P. Thus, major shifts in switched access charges may impact the ability of new entrants to profitably provide competitive communications services.

Similarly, switched access charges are a material expense for interexchange carriers. And, significant differences in the switched access rates charged by different local exchange carriers can create issues involving both competition and cross-subsidization. For example, today in Montana, Qwest charges approximately \$.04 per minute to originate or terminate switched access while other carriers operating in Montana charge as much as \$.23 per minute. This higher rate level could cause some carriers to elect not to offer originating long distance services to the customers served by those local carriers. And, when long distance companies terminate calls to those customers, they are, in essence, subsidizing the operations of the high priced access provider. AT&T asserts that it is for this reason that it imposes a \$1.50 per month connection fee on its subscribers in Montana.

These issues cannot be resolved in a vacuum, and they cannot be resolved in a proceeding affecting Qwest alone. For that reason, Qwest proposes an industry-wide review. Qwest believes that the successful collaborative efforts evidenced in the Qwest 271 proceeding and the current Commission-sponsored Electric Restructure Forums

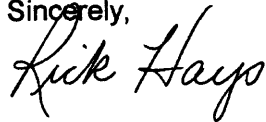

create a basis for conducting a similar review of access. After completion of such a collaborative review, whether by workshops or otherwise, the Commission could then initiate a rulemaking or other proceeding of industry-wide application. In this more structured review, the Commission could receive formal comments and supporting data from interested parties and then, based on a complete record, adopt a decision on switched access charge reform.

Qwest's experience in Colorado gives it great hope that agreement can be reached, and that a balanced, pro-competitive result can be achieved on the issue of access charge reform. In Colorado, the Commission initiated a docket to consider issues concerning intercarrier compensation. In response to that Commission action, Qwest initiated discussions with industry stakeholders to fashion joint comments to the Colorado Commission on the reformation of intrastate switched access charges. The companies that filed joint comments represent a wide-ranging group of telecommunications providers that furnish telecommunications services to residential and business consumers, in both rural and urban areas. As a group, the services the companies provide to consumers include interexchange, local exchange and exchange access services. The list of companies that filed joint comments in Colorado includes: AT&T Communications of the Mountain States Inc.; WorldCom, Inc.; Sprint Communications Company, L.P.; and, the Colorado Telecommunications Association on behalf of twenty-six of its constituent members.

The good faith discussions and negotiations this diverse group conducted has resulted in a commitment by its members to file with the Colorado Commission a joint industry proposal for the revenue neutral restructuring of intrastate switched access rates.

There is every reason to believe that we can achieve a similar result in Montana. Qwest would like to participate in such a collaborative effort.

Sincerely,

A handwritten signature in cursive script, reading "Rick Hays".

CC: Commissioners
